EDUCATION

College Of Engineering and Technology, Akola	Akola, Maharashtra
Bachelor of Engineering (B.E)	December 2021-June 2024
Computer Science and Engineering (Specialization in Cyber Security) CGPA:6.6	
Dr. Panjab Rao Deshmukh Polytechnic, Amravati	Amravati
Diploma: - Computer Science and Engineering	August 2018 - December 2021
Percentage: - 77.09	

TECHNICAL SKILLS

- Front-End Technologies:**
- HTML, CSS, JavaScript , React.js
- Back-End Technologies:**
- Node.js, PHP, Laravel (MVC framework), REST API development & integration
 - SQL/MySQL (database design, optimization, queries, stored procedures)
- ERP & CRM Systems:**
- Hands-on experience with ERP & CRM systems
- Cloud & Hosting Platforms:**
- Cloud-based platforms (deployment & scaling)
 - cPanel, XAMPP, RDC (Remote Desktop Connection)
- Tools & Environments:**
- Git/GitHub (version control)
 - VS Code, Postman (API testing),

WORK EXPERIENCE

<u>TechSolve / Edgemine Technologies LLP</u>	Akola, Maharashtra June 2024 – Present
---	---

- Full Stack Developer and React developer design and Backend Api with 2 years of experience in both front-end and back-end development.**
- Spearheaded the development and implementation of a comprehensive ERP inventory software using HTML, CSS, JavaScript, React, and PHP.
 - Developed a secure OTP system using PHP, API, and AES-256 encryption for WhatsApp and email delivery.
 - Developed APIs for placing orders, retrieving order details, and handling login/logout functionality.
 - Collaborated closely with clients to gather requirements and translate them into actionable features.
 - Demonstrated strong problem-solving skills by resolving technical errors and optimizing data-fetching processes, significantly enhancing system performance and reliability.
 - Streamlined database operations in billing software by crafting and optimizing SQL queries at MVD-Tech, improving data retrieval efficiency, and boosting system performance.
 - Led the design and implementation of intuitive user interfaces using Bootstrap, enhancing user experience and engagement resulting in positive client and end-user feedback.
 - Acted as the primary point of contact for client communication, effectively translating client needs into project tasks and deliverables, ensuring alignment with project goals.
 - Successfully led multiple projects with a team, handling client communication, project planning, and guiding team members throughout the development process. Completed work on over 30 projects and led several key projects from start to finish.
 - Worked on multiple projects involving React.js and RESTful APIs.
 - Integrated WhatsApp messaging and email services into applications.
 - Proficient in generating PDF reports using FPDF and managing Excel-based data operations.
 - Built full CRUD functionality (insert, update, delete, fetch) and report generation using both RESTful APIs and AJAX for seamless client-server interactions.
 - Developed a single-file backend structure where all operations (insert, update, delete, fetch) were implemented using reusable functions

PROJECTS

TECHSOLVE WEBSITE	June 2024-July 2024
Link This website was created for Edgemine Technologies LLP, Akola Company to introduce its services and provide customer support. It includes a chatbot, email, and WhatsApp API integration to efficiently handle customer queries and support requests.	

SALARY MANAGEMENT SOFTWARE	June 2025- September 2025
- Built using React (Frontend), PHP REST APIs (Backend), and MySQL (Database). - Designed Masters Module to manage business units, employee details, and departmental groupings. - Developed secure Employee Account portal with profile access and salary history. - Automated Payroll Processing with configurable structures (Basic, HRA, Allowances, Deductions) and optional leave/attendance integration. - Implemented Loans & Advances module with approval workflows, repayment terms, and restriction rules. - Generated PDF Salary Slips with download/print features and monthly record keeping. - Integrated WhatsApp-based salary slip delivery with templates and delivery logs. - Enabled Excel-based bulk salary upload with auto-validation and error handling.	

BILLINE SOFTWARE REPORTS	July 2025-Present
I am developing and maintaining a comprehensive Billing Software Application that is actively used by over 800+ clients. The system is designed with role-based licensing and permissions, ensuring that only authorized users can access and generate specific reports. It provides advanced reporting features such as Sales Reports (goods-wise) , Stock Reports & Stock Management , Commission Reports , Payable Statements , Credit Card Bill Reports , To-Pay Bill Reports , Supplier Reports , and Detailed Activity & Logs Reports And many others. The application also includes a centralized Admin Panel for client and staff management, along with firm-wise reporting screens that streamline financial and operational control.
